

Lake Michigan Volunteer AMBLE

Avian Monitoring for Botulism Lakeshore Events

Walk the beach of your choice every 7-10 days this June–November and share your observations of environmental conditions and bird health with the U.S. Geological Survey's National Wildlife Health Center.

www.nwhc.usgs.gov/AMBLE/

Participant Benefits:

- Training in avian botulism detection and reduction
- Contribute data to Lake Michigan botulism research
- Website and "AMBLE Ramble" newsletters with updates
- An excuse to go for a walk!
